Hosted by

BAYSHORE In Grove
B.I.G. Community Voices

Celebrate the 51st Anniversary of EARTH DAY at the enchanting historic Villa Woodbine property just across from Kennedy Park on Biscayne Bay.

KEYNOTE EVENT SPEAKER SERIES:

Inspiring Multifaceted Resilience Perspectives

ART + EMPOWERMENT + GOVERNMENT + SCIENCE

A multidimensional approach - how provocative community engagement can shape conversations about environmental issues, and inspire measurable policy best practices to improve community resilience.

Join us and feast on farm-to-table dishes and deserts, while listening to live music, participating in a fun live auction, meeting like-minded people who embrace bold, creative, and innovative solutions that raise awareness about environmental conservation and climate resilience.

Be a local voice, Make a global difference.

Earth Day was founded in 1970 by U.S. Senator Gaylord Nelson and is now celebrated in over 190 countries. B.I.G. believes the real power to influence is in community voices joining to create change.

Event to benefit advocacy efforts of Bayshore In Grove (B.I.G.), a 501c3, Non-Profit organization dedicated to educating and inspiring stewardship of our coastal community and a more sustainable future of our planet.
